Energy Efficient and Sustainable Energy-Driven Built Environments

Housing, Workspaces and Institutions in Low Resource Contexts in India

www.selcofoundation.org
info@selcofoundation.org
Our Approach
Enable Ecosystems for Sustainable Habitats

- Dedicated Poor Based Energy Efficient Building Technologies
- Trained Human Resources in Green Technology
- Incubation of Last Mile Service Providers
- Sustainable and Cash Flow based Financial Models
- Conducive Policies for Delivery of Sustainable Solutions
Our Approach
Holistic and User Centric

1. Mapping Typologies
   Climate Zones, Climate Stresses, Disasters, Geography

2. Aspirations and Inclusivity
   Community, Culture, Density

3. Need
   Occupancy, Function and Ownership
Intervention Sectors

**Healthy Homes** and Shelters for communities that are homeless, landless and with land titles

**Healthy Workspaces**
- Individual Entrepreneurs - Potters, Blacksmiths, Home based workers - Tailoring and Garments, Group or FPO based – Agri Processing Centers or Textile Mills

**Healthy Institutions** – Daily Care Creches, Anganwadis, Schools and Healthcare for the underserved communities
Partnerships for Energy Efficient and Sustainable Energy-Driven Built Environments

SELCO Foundation is a 10 year old organisation that engages in field-based R&D and ecosystem building for deployment of clean energy solutions that alleviate poverty in tribal, rural and urban poor areas. The organisation works closely with practitioners in the social sector, energy entrepreneurs and partners from various developmental sectors.

SELCO Foundation is an open source platform with a network of research and development labs that implement and disseminate sustainable social innovations through an ecosystems approach.
